

8.10 Epidemic/Outbreak

8.10.1 Reporting Infection

If a person becomes ill with the flu and has reason to believe he or she has been exposed to avian flu, the individual should report it immediately to the local Health Department.

8.10.2 College Operations

The College's decision to remain open will depend on the timing of the outbreak and whether the outbreak is national or local and in coordination with local Health Department.

The College will determine whether to cancel programs such as sporting events and performances occurring on campus.

If the College is forced/decides to close, realistically it could be several months.

If a regional/national outbreak occurs, decisions to furlough non-essential staff may be required to focus on keeping the College operating. Decisions for such downsizing of personnel shall come from the College President and/or the Executive Staff.
