HUMAN POWERED VEHICLE CHALLENGE CLUB

The purpose/mission statement of the Human Powered Vehicle Challenge Club (HPVCC) is to better prepare Highline Community College (HCC) students for engineering careers. The objective of this club is to construct a safe, reliable, and competitive Human Powered Vehicle (bike) to compete at the National American Society of Mechanical Engineering Competition. This club will allow students to apply concepts learned in the classroom to real-world engineering projects. Students will also improve their teamwork and communication skills. These goals will be achieved through the processes of "hands on learning," and participation in 2009 West Coast Human Powered Vehicle Competition. Funding will be established through HCC (522 funds) and the Highline Community College Foundation. This club will maintain an "open door policy" which will ensure any student of HCC may join this club. This club hopes to expand the horizons of HCC students by connecting, engaging, and building relationships both inside and outside of HCC.
